When: Tuesday, September 12, 2017

5:30 p.m. Doors open (staff will be available for questions)

6:00 p.m. Presentation

6:30 p.m. Question and answer session

Where: Fridley Municipal Center, Council Chambers
6431 University Avenue NE, Fridley, MN

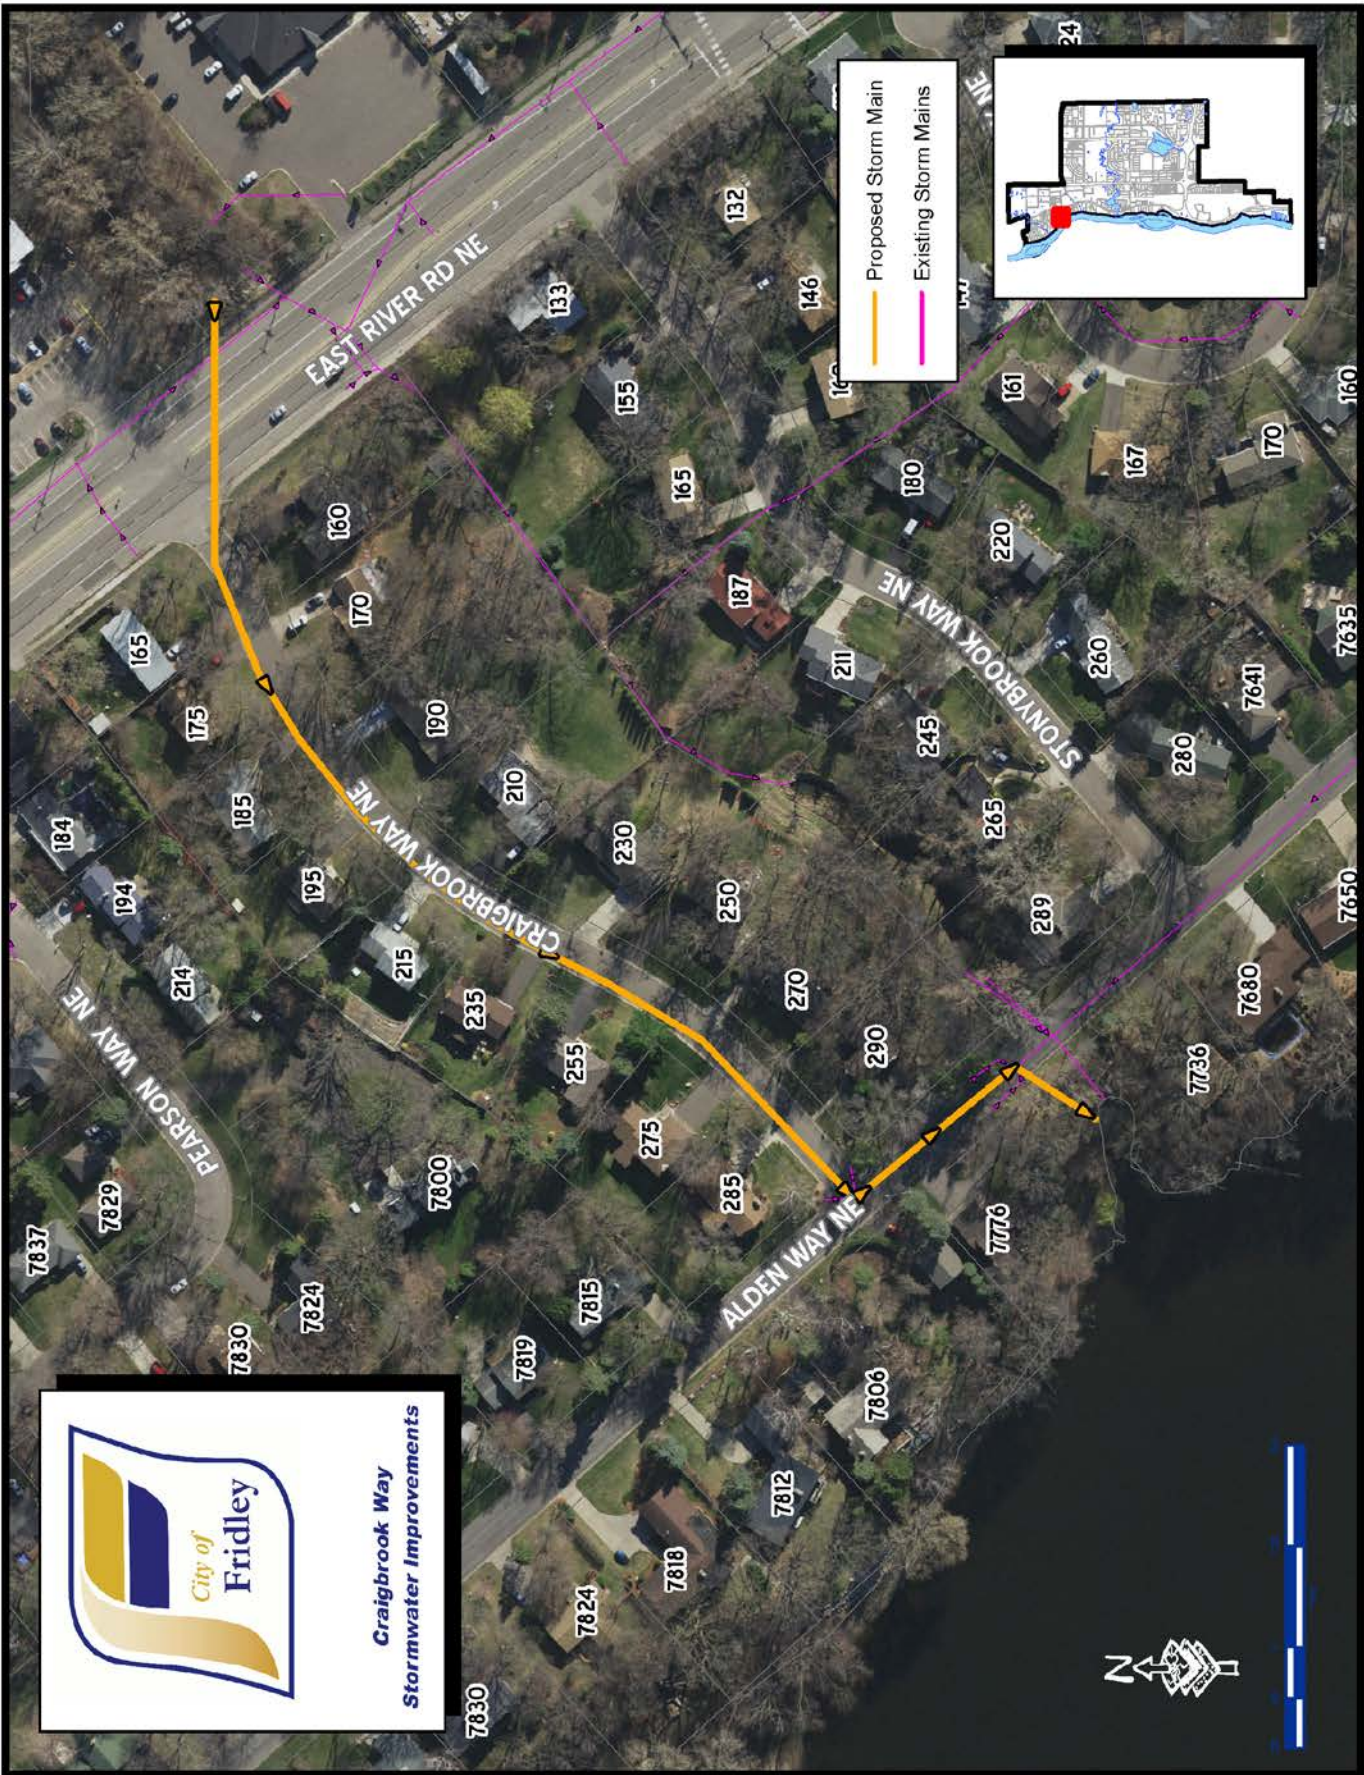

You are cordially invited to attend an informational meeting to review the proposed improvements for the upcoming Stonybrook Creek Flood Mitigation Project. If you have a rental property, we encourage you to inform your tenants of the open house. Please see the attached map for project location. This project is being proposed to relieve flooding issues near the east side of East River Road with a plan to start construction in early 2018. We will discuss the proposed construction, schedule, funding, and impacts.

The presentation will highlight the historical flooding issues in this area, the development of options to mitigate flooding east of East River Road, and the advantageous maintenance of having the alignment down Craigbrook Way.

Following the presentation, the project team will be available to answer your questions.

We look forward to seeing you at the Open House. If you have questions before the Open House, please contact Brandon Brodhag or for more information please check out the link above.
