Stonybrook Trunk Storm Sewer Improvement Project

Street Paving

The contractor is scheduled for the first lift of paving on Tuesday, September 11th. Cars cannot be parked on the street in the construction area during this work. **Please have all cars off the street prior to Tuesday, September 11th, 7:00 AM.** We ask that you please stay off of the new pavement until the contractor has completed working for the day. You will have access to your driveway by the end of the day.

You may continue to park on Alden Way and any adjacent street during the paving process.

If you are planning on having your driveway completely done, your contractor will be able to come do the work starting on Wednesday, September 12th or any time after that.

See the project webpage at fridleymn.gov/projects or contact the City of Fridley Engineering Division at (763) 572-3554 if you need additional information.

Thank you
