

2020 Street Rehabilitation Project

Construction Update

August 19, 2020

ELY STREET Temporary Mailbox Cluster:

Beginning Thursday, August 20th, your mail will be delivered to your regular mailbox. Thank you for accommodating the temporary mailbox cluster during utility work.

LONGFELLOW STREET Temporary Mailbox Cluster:

While the contractor conducts watermain replacement in the project area, **Longfellow Street** mail service will be temporarily moved to a mailbox cluster on the corner of Ashton Avenue and Ely Street. **This will begin Friday, August 21st**. The contractor has coordinated this temporary change of mail delivery with the Postal Service. The City will provide an additional notice upon regular mail delivery to your property.

LIBERTY STREET Temporary Mailbox Cluster:

Mail will continue to be delivered to the mailbox cluster at Ashton Avenue and Liberty Street until utility work is complete. Note the new watermain has been installed and reinstatement of services will follow after specified testing criteria is met.

Street Parking:

As a reminder, we ask that no personal vehicles or property be parked on project area streets during working hours (7am-7pm Mon-Fri). This gives the Contractor room to work and prevents any damage to personal property. Streets adjacent to the project area can be used for temporary street parking during these times.

Stay Connected:

The City will be posting all project updates and notifications on the 2020 Street Project page at the following location:

<https://www.fridleymn.gov/1492/2020-Street-Project>

Residents are encouraged to sign up for email alerts for current updates at

<https://www.fridleymn.gov/1354/Projects>

OR, please contact web-StreetProjects@fridleymn.gov and request to be added to the 2020 Street Project mailing list to receive project updates via email.

Resident Access

The City and Contractor will do everything possible to minimize the inconvenience to residents in the construction areas.

However, please note that this type of construction may generate noise, dust, and mud, and is generally a disruption to the area.

Residents will have access to their driveways during construction except when major construction events are occurring on their street.

Worksite Safety

Although it is tempting and interesting to watch, it is very important that residents, including children, remain out of the immediate work zone.

Please remember to be safe and drive cautiously wherever you see construction workers, equipment and warning signs.

If you have an emergency, the City of Fridley's after hours contact is (763) 427-1212. This is an Anoka County Dispatch and they will direct your call.

www.fridleymn.gov

The contractor's hours will be from 7:00 a.m. to 7:00 p.m., Monday – Friday. There is potential for occasional work on Saturdays upon City approval. Please also note the project covers a large area. There may be times when you will not see continuous construction activity on your street. The contractor will likely be in another area of the project.

Contact Information:

*Thank you in advance for your cooperation and patience during the project. The City of Fridley's onsite engineer, **Nic Schmidt**, can be reached at **(763) 572-3556** if you have any questions, or concerns.*
