

# 2020 Street Rehabilitation Project

## Concrete Driveways, Curb & Gutter

August 19, 2020

### Concrete Driveways, Curb & Gutter:

The Contractor has begun pouring concrete curb & gutter around the project area. In order for the new concrete to strengthen and cure properly, it requires 7 days of undisturbed curing. We ask that during this time residents do not park adjacent to the new concrete. If the new concrete runs through your driveway, we ask that you park after-hours away from new concrete or on an adjacent street. As a reminder, we ask that no personal vehicles or property be parked on project area streets during working hours (7am-7pm Mon-Fri). This gives the Contractor room to work and prevents any damage to personal property. Streets adjacent to the project area can be used for temporary street parking during these times.

### Street Reclamation:

The Contractor will continue street reclamation of the project area streets. These include Hugo Street, Ironton Street, Ruth Street and Ashton Avenue. The Contractor will follow the street reclamation with grading to prepare the base and provide a drivable surface.

### Watermain & Hydrant Replacement:

The Contractor has completed watermain replacement on Liberty Street and will continue with service replacement once quality control testing is complete on the new main. Once finished, the Contractor will begin watermain and service replacement on Longfellow Street. The Contractor is also actively replacing hydrants within the project area. Note that utility work may temporarily limit driveway and street access.

### Stay Connected:

The City will be posting all project updates and notifications on the 2020 Street Project page at the following location:

<https://www.fridleymn.gov/1492/2020-Street-Project>

Residents are encouraged to sign up for email alerts for current updates at

<https://www.fridleymn.gov/1354/Projects>

OR, please contact [web-StreetProjects@fridleymn.gov](mailto:web-StreetProjects@fridleymn.gov) and request to be added to the 2020 Street Project mailing list to receive project updates via email.

### Resident Access

The City and Contractor will do everything possible to minimize the inconvenience to residents in the construction areas.

However, please note that this type of construction may generate noise, dust, and mud, and is generally a disruption to the area.

Residents will have access to their driveways during construction except when major construction events are occurring on their street.

### Worksite Safety

Although it is tempting and interesting to watch, it is very important that residents, including children, remain out of the immediate work zone.

Please remember to be safe and drive cautiously wherever you see construction workers, equipment and warning signs.

**If you have an emergency, the City of Fridley's after hours contact is (763) 427-1212.** This is an Anoka County Dispatch and they will direct your call.

[www.fridleymn.gov](http://www.fridleymn.gov)

*The contractor's hours will be from 7:00 a.m. to 7:00 p.m., Monday – Friday. There is potential for occasional work on Saturdays upon City approval. Please also note the project covers a large area. There may be times when you will not see continuous construction activity on your street. The contractor will likely be in another area of the project.*

### Contact Information:

*Thank you in advance for your cooperation and patience during the project. The City of Fridley's onsite engineer, **Nic Schmidt**, can be reached at **(763) 572-3556** if you have any questions, or concerns.*
